A Note from the Directors

Dear parents, friends and colleagues,

At Hayutin, family is more than a feeling. It's our philosophy and our practice. Founded and run by a brother-sister team of professional educators, Hayutin provides caring, insightful, research-informed attention to every child—and every family.

With Hayutin, your child works one-on-one with an expert educator who knows your child as well as their subject matter. Equally important, we connect you with our deep pool of professional teachers, therapists, and allied professionals who tend to every child's individual growth.

When you partner with us, you never face any educational challenge alone. With in-person and virtual options, you're welcomed and supported by a warm, dynamic educational family. We invite you to get to know us better.

Best wishes,

The Hayutin Family

The Hayutin Difference

At Hayutin we believe in the tremendous potential of young minds—and we hope that after learning more about our values, methods, and outcomes, you'll believe we are the right resource for your family.

Every administrative leader at Hayutin is an educator first. And every Hayutin educator is an expert and mentor who trusts in and builds on your child's ability to succeed.

Our learners work with caring, well-informed, enthusiastic professionals who inspire them to believe in themselves as independent thinkers and confident problem-solvers.

To ensure every child grows into the self-aware, deeply invested learner we know they are, we...

- carefully match your child with an educator whose approach and personality fit them best—and whose expertise is up-to-date and ever-expanding.
- teach organizational and self-management skills with every subject, and as a stand-alone service.
- give you access to a diverse team of allied professionals and practitioners who actively support and inform your child's journey with us.
- promote your child's learning independence as the ultimate goal of our program.

We work toward academic transformation that translates into real-world confidence and capability.

Executive Functioning: Skills for Life

Individualized Approach

- Identify challenge areas
- Set goals and establish manageable routines
- Integrate team communication
- Fade supervision and foster autonomy

Targeted Outcomes

- Organization: Physical and digital systems
- Time management
- Goal-directed behavior
- Metacognition
- Study Skills
- Self-advocacy
- Stress reduction

Does your student..

- *have frequent missing or late assignments?*
- *have a black hole backpack?*
- *forget to bring home materials needed for homework completion?*
- *not follow instructions on exams or projects?*
- *avoid communicating with teachers?*
- *struggle with how to study?*

Time for an EF Coach!

Educational Therapy & Remediation

Areas of expertise include:

- Elementary to young adult learners
- Specific remedial programming for reading, writing, and math
- Executive Function coaching
- Foundational skill building within the context of assigned schoolwork
- Lesson plans and activities
- Informal assessments to set academic goals and programs
- School year and intensive summer remediation
- Attendance at IEP and team meetings
- Collaboration with colleagues

Expert services for students with learning disabilities.

Our educational therapists and specialists are trained to work with students with a wide range of diagnosed learning disabilities. Experienced in interpreting neuropsychological assessments, they implement and prioritize specific educational recommendations accordingly.

EDUCATIONAL SPECIALISTS

All of our specialists have a master's degree in education, special education, psychology, or a related field. They also have formal training in a variety of remedial programs for targeted interventions.

EDUCATIONAL THERAPISTS

Our educational therapists are specialists who have earned an additional degree or certification from a recognized educational therapy program.

Independent Study

Custom homeschool options for alternative learning paths.

Hayutin partners with accredited online schools and provides individualized, tailored instruction. Whether you want to fill in a missing credit, retake a course to boost your college GPA, or accelerate a level in a specific subject area, our expert team of tutors and consultants is here to help.

We collaborate with families to build custom academic pathways. Independent study empowers students to take control of their learning in a one-on-one setting and push their learning to new heights.

- Robust list of class offerings, including honors and AP courses
- Single semester and full year courses available
- WASC, Cognia, UC, and NCAA approved courses

Tutoring

One-on-one sessions with subject-matter experts

We cultivate one-on-one academic relationships to empower students to “study smart,” learn effectively and excel academically. Our tutors personalize instruction with specific strategies and techniques for learning differences and individual styles. This approach empowers Hayutin learners to earn stronger test scores and higher grades, but also to redefine their relationship with teaching, learning, and discovery.

Students thrive with individualized academic and emotional support as they form transformative, trusting connections with Hayutin tutors. Some simply need attention for a given class, while others require consistent instruction across a range of disciplines. All emerge from the experience with vital skills for learning and life.

We specialize in helping students become their own best advocates.

Ultimately, our tutors are trained to help their students “graduate” from tutoring by becoming increasingly self-reliant, self-assured learners.

Test Prep

Many students will face standardized tests this year. Others will not.

Essential academic skills are more vital than ever.

Foundational work in reading, writing and math can address remote learning gaps.

- ERB & state tests
- ISEE & HSPT
- ACT & SAT
- Essential Skills
 - Vocabulary development and reading comprehension
 - Timed writing
 - Math review, preview and placement exams
 - Executive functioning and study skills

**It's time to learn more about testing trends and changes in your county.
Let's design a custom plan together.**

Most of all, *we believe in your child*

College Consulting

Throughout the college process, we hold true to our mission: empowering students to make good choices so their doors of possibility remain wide open.

Our students learn how to vet their best-fit schools by determining their own successful match criteria. We curate actionable deliverable lists and co-author custom timelines to reduce pressure and avoid late night cramming before application deadlines.

At Hayutin, we listen closely to help students discover school environments where they can thrive. It's never just about "getting in." By investing quality time and effort, our students prepare to do more than just enroll. They are ready to become active, contributing members of a dynamic undergraduate community.

Customized Educational Assessment

Maximize learning with our personalized approach.

Areas of Focus

- Reading
- Writing
- Spelling
- Math
- Executive Functioning

Academic benchmark testing administered by an educational expert to design intervention.
